

9 APR 1976

Ms. Ingrid W. Reed
Administrative Director
Rockefeller Public Service Awards
Woodrow Wilson School of Public
and International Affairs
Princeton University
Princeton, New Jersey 08540

Dear Ms. Reed:

It is with great pleasure that I nominate Mr. Carl E. Duckett for the 1976 Rockefeller Public Service Award for his accomplishments toward a redefinition of the United States' role in world order.

Mr. Duckett is my Deputy Director for Science and Technology. His contributions to the United States Government for more than twenty-eight years and to this Agency in particular since 1963 have been exceptional. He has fused a conglomerate of scientific and engineering disciplines into a responsive and innovative intelligence organization. In addition to his recognized professional expertise, his facility in communicating with professional experts and government leaders, both native and foreign, has made him a national asset, particularly in the SALT negotiations with the USSR.

All those who know Carl Duckett will be highly pleased should his contribution to the welfare of the nations of the world be recognized by this award.

Sincerely,

15/ George Bush
George Bush
Director
